Abstract

This is the abstract

To be submitted to *Phys. Lett. B*

8 List of contributions to analysis

9	Student, Joe	fake background estimate in muon channel, MCFM calculations of diboson back-
10		ground cross section limit calculation
11	Student, Jane	top-quark background estimate, final analysis implementation
12	Postdoc, John	editor of internal note, fake background estimate in the electron channel, cut
13		optimisation studies
14	Postdoc, Jack	major contributions to nearly all aspects of analysis, paper contact editor
15	Professor, Joan	supervised student and postdoc of Institute 1, contributions to top-quark back-
16		ground estimate.
17	Researcher, Joanne	implementation of muon calibration and systematics
